Confidential/Privileged

This communication contains confidential information that is intended to be received and read only by the party named as addressee (listed after "To:" at the left). This communication may contain information that is subject to the attorney/client privilege and/or a court order restricting its dissemination. No one else is entitled to read, use, copy or disseminate this communication or the information contained herein. If you are not the addressee, or the agent of the addressee, then contact us immediately by telephone (collect) or facsimile and arrangements will be made for the return to us of this communication.

Thank you, BACON & THOMAS, PLLC.

UNOFFICIAL COMMUNICATION – NOT FOR OFFICIAL ENTRY

Dear Examiner Battula,

Please find below our proposed amendment to the independent claims in this application.

We are open to suggestions to any changes to the claims which will satisfy your concerns about the previously used language in the claims.

If possible, please let me have your comments by October 21, 2009.

1. (Currently Amended) A security element comprising a cover layer having gaps in the form of characters or patterns forming visually and/or machine readable first information, wherein a printed image in the form of letters, numbers or geometrical figures forming visually and/or machine readable second information is printed within the gaps in register by a digital printing method, and further wherein the content of the second information within the gaps is different from the content of the first information of the respective gap within which the second information is disposed, and further wherein an information conveyed by an overall contour of the first information is different from an information
